FRANCE READY TO FORCE COLLECTION OF GERMAN DEBTS

(BY CABLE-EXCLUSIVE DISPATCH.)

PARIS, Dec. 25.—France has prepared her case against Germany. On January 2, it was learned today, it will be presented by Poincare to the parley of Allied prime ministers when it meets on that date.

France, according to the reports, must be paid reparations on which Germany has defaulted in the past. This is essential, so that France may reconstruct the areas devastated by the former enemy nation during the World War. It is held in Paris.

Secondly, since Germany apparently does not intend to tap the resources of the rich magnates who hold the German wealth in the Ruhr, France must take steps to wring reparations from the great industrialists.

MUST GET MORE

Third, Germany's 1923 payments will fall far short of the reparations required by France, and therefore the Poincare government must take some steps to have the amounts increased.

Simultaneously with this pronouncement of program at the Prime Ministers' conference it became known today that France does not intend to use her military force to invade the Ruhr Valley, in which are some of the richest coal deposits in the world.

The Poincare regime, however, has determined to use France's soldiers in the Ruhr in case that step is deemed necessary to protect customs officials who are to be sent in to collect revenues.

The change in tactics is taken, generally, to mean that the government has decided that it would be an unwise step to act against the expressed desires of both the American and British governments.

Both nations have informed Poincare that they would oppose any program which would include military occupation.

DISCRETION NOW USED

Now that the French policy has been tempered with discretion, it is recalled that the part that Ambassador Harvey, now en route to the United States, played at the London Ministers' conference, which ended in a deadlock. Harvey, it is said, served notice on an adviser of Poincare that the people of America would frown on the march of the French army farther into Germany.

The Times, an authoritative newspaper which invariably speaks the voice of the government, declared without reservation that France is facing choice of ruin or forfeits from Germany.

FIND LODGER SUICIDE IN BATHROOM

Choosing Christmas night upon which to leave this world, Lovett C. Corder, 45 years old, manager of the Caden-Sirothoff Stationery Company, 283 South Los Angeles street, committed suicide by inhaling gas at 417 West Forty-second street.

Mrs. M. Faulkner and Mrs. J. Singleton of the same address noticed the odor of gas emanating from the bathroom. They summoned the police, who found Corder in the locked door and dragged him out. An ambulance was called, but he died on the way to the Receiving Hospital.

Little is known of Corder by the occupants of the house, as he had been rooming there only a short time. No motive was apparent and the man left no note behind, nor had he previously made mention of committing the act. Slight doubt was cast on the suicide theory by police, as the gas jet, which was wide open, would have been difficult to turn on by accident.

POINDEXTER TO STRESS NAVY NEEDS

British and Japanese Sea Strength Rated Superior to Yank Fleet

BY ARTHUR SEARS HENNING (EXCLUSIVE DISPATCH)

WASHINGTON, Dec. 25.—Failure of the administration and of Congress to provide for maintaining the American Navy at the maximum strength and effectiveness permissible under the 5-5-3 naval limitation treaty will be called to the attention of President Harding officially this week.

The situation is arousing grave apprehension and is destined to be the subject of controversy in the Senate before the naval appropriation is passed.

Both the British and Japanese navies are being modernized within the terms of the treaty, while the United States, pursuing a do-nothing policy, is allowing many of its first-class ships to become obsolete when compared with ships of the same rank in the other two navies.

As a result the American Navy, though on paper equal to the British navy actually is far inferior, and is not greatly superior to the Japanese fleet.

NO PLAN IN BILL

The pending naval appropriation bill is devoid of any plan for modernizing the American Navy and bringing up-to-date and other auxiliary strength, which no limit on ship strength, which no limit on ship strength, which no limit on ship strength.

As an alternative House and Senate Naval Affairs committees indicated the plan to call another arms conference.

Sen. Poincxter, Republican, Washington, acting chairman of the Senate committee, is so far from over the situation that he said last night he would seek a conference at once with President Harding to urge administration support of remedial action. He said that the cost of a modernization program would not exceed \$10,000,000 and that the appropriation should be made in the pending bill, or in any event in a dedicated bill before this Congress expires March 4 next.

EXPERTS FAIR

Navy Department experts persistently sought the modernization appropriations, but made no headway. The administration or with Congress.

According to testimony before the Senate committee the British navy actually is far inferior, and is not greatly superior to the Japanese fleet.

VICTIM AND ASSAILANT BOTH SHOT

After a shooting scrape last night at Twelfth street and Central avenue, Ross Tolliver, a negro of 142 Kohler street, and Jack Dragna, an Italian of 1901 East Twenty-ninth street, were taken to the hospital seriously wounded.

Tolliver was shot through the stomach. Surgeons at the County Hospital declared a major operation would be resorted to in an effort to save his life. Dragna received a bullet in the left lung when he failed to halt at the command of Officer Watson, who pursued him. He has an even chance for life.

Tolliver and Dragna were said to have become embroiled in a quarrel. Witnesses assert that Dragna drew a revolver and fired at the negro. Officer Watson came on the scene as Dragna attempted to flee. The policeman called upon Dragna to halt, and when he kept on running, drew his revolver and fired two shots. One of the bullets entered Dragna's back and penetrated his right lung. He was taken to the Receiving Hospital where Dr. Norman Dorn said he had a good chance for life.

Detective Sergts. Wild, Dryden, Allen and Murray investigated the affair.

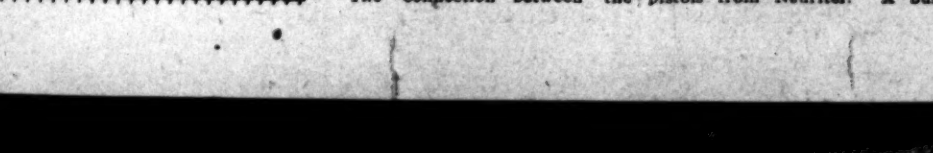

IT ANSWERS QUESTIONS

—Solves Problems, Settles Arguments

How would you like to have at your finger tips all the facts and figures gathered by statistical experts in Southern California? If you got into an argument about oil, hog-raising, rainfall or climate, how would you like to have a private oracle that would answer your questions as quick as lightning?

This service is performed by one of the bright new features in the forthcoming Los Angeles Times "Encyclopedia" section, a library full of facts. Everything is there, classified, indexed, and amplified with charts and diagrams. The average family will consult it a thousand times a year. It will prove a boon to school children and a broadside for the folks back East.

Although this information represents on the part of business firms and government bureaus an expenditure of more than a hundred thousand dollars, yet the "Oracle" and four other 48-page magazines go on sale New Year's Day for 15 cents.

EXPECT NEW ARRESTS IN KIDNAPING

Friends of One Suspect Now in Jail Are Rallying to His Support

(BY A. F. NIGHT WIRE)

BARTROP (La.) Dec. 25.—The probability that the next chapter in the Morehouse kidnaping investigations would be written soon in Mer Rouge loomed strongly here tonight.

Atty.-Gen. Cocco's announcement in Marksville, where he is spending Christmas, that the State expected to arrest at least six or seven more persons on charges of murder for the deaths of Walt Daniels and Thomas Richards is expected to be fulfilled in the Mer Rouge community.

It is believed that many of the men whom the State suspects are ringleaders of the august white-robed and masked mob will be served with warrants before January 5, the date set for the open hearing here. Developments at the hearing may well indicate the rest of others. Federal agents have declared they have the names of twenty members of the mob.

BURNETT GUILTY?

The State believes T. J. Burnett guilty of the murder charge upon which he was arrested Saturday. The Attorney-General declared today that Burnett, accused of the murder of Walt Daniels, is a suspect held in jail at Bartrop. "We further believe we have the evidence upon which we could convict these men," he said.

An order was issued today denying visitors permission to communicate with Burnett, except in the presence of a military detail. Burnett's friends, who are many, are rallying to his support.

The State forces penetrating into the mystery and the populace of Morehouse, released today under the spirit of Christmas. The troops stationed here and at Mer Rouge rested on their arms as the townfolk brought out the traditional Christmas dinner with his aged mother and relatives at New Orleans to see him at his home.

ANNOUNCE CONFERENCE

A conference of those conducting the inquiry was announced today for Thursday at New Orleans. At that time plans for the hearing will be outlined and the findings of the coroner's jury, which held the inquest over the bodies of Daniels and Richards, will be discussed.

The bodies, lying in cool water at the bottom of the lake four months before, were examined by unidentified midshipmen, were said to have been well preserved. The hands and limbs were missing. The physicians disclosed that evidence indicated the men were beaten and their bones broken before they died.

Department of Justice men are seeking to find Dr. B. M. McKel, former Mayor of Mer Rouge, wanted for interrogation. The

Suitor Thought Crazy by Young Girl's Rejection Kills Her Baby Brother and Two Sisters

(BY A. F. NIGHT WIRE)

SEATTLE, Dec. 25.—Rejection of his advances last spring, believes Helen Engel, 16 years old and pretty, so crazed Emil Neuriter, 40, a ferryboat proprietor, that after fortifying himself, he entered her home here today and turned Christmas joy into tragedy by killing her two sisters and one of her brothers and then committing suicide. Neuriter when he came into the house asked for Helen.

Helen says that Neuriter attempted to shoot her when she repelled him in the spring. Neuriter took to the Engel home today three pistols and two pocketfuls of cartridges.

Neuriter, according to the coroner, ambushed himself in the woodshed at the Engel home, waiting until D. C. Engel, father of Helen, came out of the house, leaving his family around the Christmas tree distributing gifts. Engel saw three pistols leveled two to the house. In the house Neuriter ordered Engel to lock all doors.

SISTER FIRST VICTIM

"Get Helen for me," Neuriter is alleged to have shouted with the pistols in his hands. "I'm here for business and I'm going to kill Helen—I'll kill you all."

Anna Engel, seventeen, sister of Helen, sprang to the defense of the family and sought to wrest the pistols from Neuriter. A bullet

(EXCLUSIVE DISPATCH)

CHICAGO, Dec. 25.—Prosperity of the old-fashioned sort rudely jolted out of joint by the World War, undoubtedly is returning to the United States. This means that there is abundant employment at good wages and people have money to spend. That they are spending it freely is shown by the best estimate of Christmas buying in Chicago, which approximates a hundred million dollars—eighty million in the Loop district and twenty million in the outlying stores. This vast sum greater by 16 per cent than any previous year, went for presents, food and holiday incidentals.

More than 100,000 dinners and tons of clothing and necessities were given by various societies and individuals to persons unable to provide for themselves. The Good-fellow Club, numbering 3610, visited 2966 families, leaving blankets, overcoats, shoes, money for rent and food. The Y. M. C. A. gave out 15,000 children in the poorer district, distributing Christmas trees and miniature Christmas trees, decorated and ready for service. If Chicago may be taken as an index, the country is fairly well advanced on the road of prosperity and good fellowship.

MANY SAINT NICKS
(BY A. P. NIGHT WIRE)
NEW YORK, Dec. 25.—Tradition says that there is only one Santa Claus, but tradition was given the lie in New York today, when nearly everywhere from Cor. West 12th St. down to the Hudson river, a sturdy, bearded, red-clad figure, with a sack of gifts slung over his shoulder, was seen distributing Christmas gifts. The new Governor was the first to set the fashion. Returning from midnight mass to his apartment in the Hotel Hamilton, he mounted a splendid sleigh, and began stringing Christmas trees in a sturdy Christmas tree. Then plain "Father Al Smith" came himself on a few steel horses, and began distributing the family gifts. Meanwhile other Santas were hurrying their respective deliveries for a journey around town. There were private families galloping, but it was the Santa in hospital, street-car Santas and Santas in missions that drew the most eyes. It seemed as if New York—the great city of nearly 6,000,000—had hardened to the cry of "Santa Claus" and was giving until it hurt.

Not even prison bars could shut out the Christmas cheer. In the Tombs, that gloomy building with its bridge of skulls, a real Christmas dinner, with 300 men and twenty women, was served on the roof of the prison.

Out of the entire group of State executives to come to Washington in response to the President's call for a discussion of the liquor situation, not a voice could be found to champion the return of even light wines and beer. They all favored stricter enforcement. Photo shows in group on White House portico: President Harding, Vice-President Coolidge, Secretary of Treasury Mellon, Atty.-Gen. MODERNIZING OF
NAVY DEMANDED

(Continued from First Page)

With President Harding to urge administrative support of remedial action, the House of Representatives today declared their courage and fortitude. The measure, known as the "Modernization of the Navy Act," would authorize the construction of a new fleet of battleships, cruisers, and submarines, and would also provide for the modernization of the existing fleet. The bill is expected to pass the House in the near future.

EXPERTS' FAIR
Navy Department experts presently sought the modernization appropriations, but made no headway. The bill is expected to pass the House in the near future.

According to testimony before the Senate committee, the British have collapsed turret gun openings and elevated guns so that the British battle fleet has a range of 20,000 yards compared with a maximum of about 15,000 yards for all American ships except the Tennessee, California, Maryland, Colorado, and West Virginia. In addition, the armor of British ships has been reinforced with armor plate, and the armor of the turret has been reinforced with armor plate. The British also have a superior gun, and the armor of the turret has been reinforced with armor plate.

The hearing will be made against all persons pointed to by the evidence as probably implicated. All persons will be free to enter this court and submit their testimony. At the conclusion of the hearing a grand jury will be impaneled and indictments returned where justified. The Morehouse grand jury shortly after the kidnapping, announced after a session it could not find any evidence upon which to return indictments. At that time it was not definitely established the missing man was dead.

Those indicted will face trial in the regular course of the law, although it is certain a change of venue will be requested. The hearing will be conducted by the Attorney-General, assisted by St. Clair Adams of New Orleans. District Judge Odum, before whom the hearing will be held, said he believed there would not be the slightest interference with those in authority.

Traumatized Chinese "Butterfly" Returns in Tears; Objects to Husband

(EXCLUSIVE DISPATCH)
Washington, Dec. 26.—A crestfallen Chinese "butterfly" fluttered home today. Outwitted by a clever Occidental policeman, little "Butterfly" spirit drooped, though a defiant tone of her bobbed hair showed that the flame of her "butterfly" rebellion against a marriage arranged by her parents in oriental fashion still burned. Thus ended the flight of Mildred Wenn, 17-year-old daughter of a rich Washington Chinese cafe owner, who vanished Friday as she was about to leave for New York to be married on Christmas Day to George Nam Lee, son of the wealthy president of the Chinese Merchants' Association of America. The dark and gloomy Christmas of her father, Wong Ling Wenn, brightened up suddenly when his daughter walked into his restaurant, slumped down at a table and burst into tears. A moment later he walked Miss Dorothy E. James, a fellowwoman, who had brought the missing Chinese beauty forth from her hiding place by a ruse. "Bluff" was the answer of Miss James when asked how she induced the missing girl to return. She located an American woman, a former employee of Wenn's cafe, and through her the policeman was able to find the girl's hiding-place and were about to raid it. It worked like magic. "I don't want to marry a husband picked out for me," Miss Wenn's only explanation of her disappearance. "I want to choose my own husband, like an American girl."

PEKING, Dec. 25.—Dropping their tools and fleeing as if they had seen the devil, which, indeed, they thought they had, the Chinese coolies engaged in digging a ditch along one of the streets of Tientsin asserted they had dug into a nest of evil spirits and that smoke was coming from the ground. Investigation by a foreigner showed that some really were coming from the bottom of the ditch. When he turned over a spadeful of soil flames burst forth. At night the ditch gives off a phosphorescent glow. Various explanations of the phenomenon have been advanced by foreigners, but the Chinese workmen of the district are convinced they have pried into the home of evil spirits.

(EXCLUSIVE DISPATCH)

WASHINGTON, Dec. 25.—President Harding is making every effort to pay the promised visit to the Pacific Coast and to Alaska in June or July of this year. After two years of application to the work of Chief Executive during which time he has had no real vacation, the President expects to make the trip to California and other parts of the West which he has been planning ever since he took office.

Last summer he was prevented from going on account of official problems that kept him and his advisers in Washington. This year summer promises to be one of the few since 1914 which has no special Congress session in sight. If the appropriation bills proceed as rapidly as the schedule calls for and the ship subsidy measure can be disposed of there will be no special session. Even if the ship subsidy matter is held over there is no probability of a special session assuming that all appropriation bills are enacted before the end of this session as now seems likely.

PLANS FLORIDA TRIP
In that event President Harding will leave for Florida for two or three weeks of rest from official cares. After that he expects to return to Washington to shape matters so that he can leave in May or June for a trip through the West, the Pacific Coast, and the North American continent. After reaching Alaska he will make a somewhat prolonged stay in that territory.

CLARENCE HOUSTON STRICKEN

Wreck of Machine

Presence of mind averted a double tragedy late yesterday afternoon when Mrs. John O. Bepres averted the steering wheel of her father's automobile and stopped the car within a few inches of the road's edge after her father, Clarence Houston, 55-year-old realtor, had been stricken with heart disease while driving over mountainous roads in Laurel Canyon. Mrs. Bepres said the two were having a Christmas ride. While passing through Laurel Canyon her father placed his hand over his heart and exclaimed, "Oh, my heart!" and fell back into his seat.

The automobile started careening down the hill when Mrs. Bepres grabbed the wheel and succeeded in bringing the car to a halt near the road's edge. Fleeing motorists rushed to the stricken man to the Hollywood Community Hospital, where efforts at resuscitation were unsuccessful. Hospital authorities said Mr. Houston had died instantly.

Mr. Houston, with office at 510 North Western avenue, resided at 3044 West Seventh street, Los Angeles. The body was removed to the undertaking establishment of Larry Basley, 4440 Hollywood Boulevard. Funeral arrangements have not been made.

BANDIT... SUSPECT... CAPTURED

Schoolgirl Joins Hunt For Assorted Jenks Harris Gangster

Frances Alexander, Who Accompanied Posse

...bandit sus-

...Jenks Harris gang
...the Fillmore State
...of \$11,000 a week
...early yesterday
...of deputy sher-
...by Capt. Wal-

ter Hots, trekked over the hills in a Christmas morn man hunt and took Carlson prisoner on the Bob McAlister ranch. He was disarmed at the muzzle of shotguns and lodged in the County Jail on sus- picion of robbery.

In the posse were Deputies Con- ley, McNulty, Jones, Luker, Con- stable Brown of Newhall. The expe- dition set out Sunday night on re- ceipt of a report that Carlson had been seen in the vicinity of the W. C. Stabler ranch. Carlson asked for food and water at the Stabler home. It was learned. He said he had been in the hills for several days. The fact that he was armed and carried considerable ammuni- tion aroused suspicion and Constable Pilcher was apprised.

The posse traced Carlson to the McAlister ranch. Frances Alex- ander, a Los Angeles schoolgirl who was spending Christmas at the ranch, joined the posse at the foot of Castaic Canyon. She climbed the four miles to the cabin where Carlson was hiding and watched the capture.

Carlson was hiding under a cot when Capt. Hots entered after the other deputies had surrounded the place. The bandit suspect crawled out with his hands in the air when Hots leveled a shotgun at him. He said he had just completed prepa- rations to go back into the hills and hide.

Six members of the assorted hold-up rans are now in custody. The other five, including Harris, have been taken to Ventura for trial. Carlson is 29 years and a blacksmith by trade.

BURGLARS CONTINUE AT WORK

Cash, Christmas Gifts and Wearing Apparel Valued at Thousands Stolen

Burglars continued their activi- ties during Christmas Eve and morning, robbing several homes in the exclusive residential sections of the city and escaping with cash, Christmas gifts, clothing and furs, value of which is estimated to exceed \$10,000.

The home of Mrs. M. C. Stein, 214 North El Centro avenue, was broken into by burglars late Sun- day night. Approximately \$4000 in jewelry was taken. Another victim of the same band of bur- glars, police believe, suffered a loss of \$500 in cash and jewelry. He is H. W. Lewis of 204 North El Centro street.

Neighbors reported to police that the home of Paul O. Brewster, 143 North Manhattan street, had been broken into. The booty taken estimated at several thou- sand dollars, although the actual value of the articles stolen is not known, as the family is away.

The H. H. Marsh home at 115 South Gramercy Place was ran- sacked from top to bottom by bur- glars who broke into the residence during the family's absence. It is estimated that several thousand dollars in jewelry, furs and other valuables were taken. Several mi- nor robberies also were reported yesterday.

EARLY SETTLER OF STATE DIES

(Continued from First Page)

Mexico, sold his ship and brought his family to California.

Adelaide Johnson was 8 years old when her father brought his fam- ily here and settled on the 24,000 acres of the Palos Verdes Ranch he bought. The forty-nine acres surrounding San Pedro Bluff he homesteaded, a fortunate act, as the Mexican government subse- quently took the rest of his landed possessions.

On this bluff he built his adobe dwelling and lived after the man- ner of his former English custom. On his death the homestead was entailed as a family estate in per- petuity.

In 1848 Capt. Johnson's daugh- ter married Francis H. Mellus, a descendant of Mayflower stock, through the Ann Robinson branch. Mellus had come here from New England to assume charge of the buying and shipping of hides and tallow, which constituted then the chief products of Los Angeles' commerce, and which were carried around the Horn in Yankee ships for New England manufacture. It was just about the time California was admitted into the Union that the marriage took place.

Of this marriage, six children resulted. James J. Mellus, Mrs. William Manning, Mrs. William Lyon, Edward A. Mellus, Mrs. Josephine Serrano and Frank H. Mellus, the first born, who died about 1890.

JOHN BANNINGS

Francis Mellus took for partner in the hide and tallow trade David Alexander. In 1863 Mellus died, and a year later the widow was married to Alexander. After the death of Mellus, Alexander be- came associated in business with the Bannings.

There were five children from the second marriage: Mrs. Martha Bannings, Miss Elizabeth Alexander, Joseph Workman Alexander, Sam- uel Temple Alexander and Mrs. Martha L. Hodges. All of Mrs. Alexander's surviving children reside in Los Angeles.

For many years Mrs. Alexander lived at Mellus Row, the lane between Aliso and First streets which in early days was the district where the founders of some of the city's largest commercial houses, including the Newmarks and Hall- mans, started their careers. From there she moved to Wilmington, where she lived until a short time ago, when she returned to the Broadway-avenue house in this city. Funeral services will be con- ducted tomorrow at 10 a.m. at the Church of Our Lady, Queen of the Angels, at the Plaza, where Mrs. Alexander was married.

The Furs

Coincident with impressive Sales of Women's Wearing Apparel and many Half-Price Sales involving almost every section of the store, Bullock's After Christmas Sales reach a Climax of Opportunity with a Strong Presentation of Price Reductions on Many Fine Furs.

With due stress first upon the Character of Bullock's Furs, the surety of their being all that Fine Furs can claim to be; Second, upon the fact that present Bullock stocks interpret the mode with as interesting a variety as one could expect of almost any collection of Fine Furs—

Bullock's Urges your attention to an investigation of the Sales Offerings that will hold sway among The Furs at Bullock's today—Tuesday—

—A few of the prominent attractions include:—

—A group of Hudson Seal (died muskrat) Coats in 40-inch length, trimmed with collars and cuffs of natural Squirrel or natural Skunk. All luxuriously silk lined and in recent styles. Greatly lowered in price to \$295.00 each.

—A group of Sealine (died Coney) Wraps, 45 inches long, made with full Mandarin sleeves in Russian Blouse effect with crush shawl collars. Trimmed with natural Siberian Squirrel or natural Fitch. Down in price to \$195.00 each.

—A group of Mink Capes in new panel and sleeve effects. Chin collars and shawl models. Richly silk lined. Reduced to levels as low as \$295.00 to \$585.00 each.

—A beautiful Hudson Seal (died muskrat) Coat in full sweep plain effect. Deep shawl collar and bell cuffs. Lined with exquisite pussy willow. It has been repriced at \$245.00.

—One could go on describing treasure after treasure of Fine Fur Garments whose original prices seem almost fabulous in comparison with the low prices to which they have been reduced. No one can tell the good fortune which may attend your very own visit—Tuesday—today—Bullock's Section of Finer Furs—Third Floor—Seventh Street Bridgeway.

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health, with Key to the Calendar"

ANSWERS TO CORRESPONDENTS

"Dear Doctor:
For many years I weighed around 140 pounds (am 5 feet 3 inches tall) until four years ago. I married, left my office work and settled down to keeping house in a modern bungalow. In a couple of years I suddenly realized to my dismay that my weight was 160. My feet hurt so badly I did little walking, I was nervous, irritable, easily tired, wanted to do nothing but eat or sleep, and worst of all my menstruation periods were sometimes many months apart or perhaps I'd flow a month or six weeks. Everything was wrong.
"I spent all I could get and still things were not improved, until I had to stop. Then saw your articles. I have followed them and I have lost forty pounds in four months.
"My feet no longer hurt, I wear any kind of shoe, walk a lot, my nerves are a thing of the past, my skin is improved, my joy and happiness they had become pregnant after reducing their weight, and had thought they were barren. They had given up hopes of having children. So perhaps your dearheart wish may be gratified also.
"Mrs. E. C.—Have you our instructions on how to gain weight? If not, send for them in the usual form. There are so many causes for headache—eye strain, chronic auto-intoxication, chronic infection, etc., that you had better see your physician to determine the cause of yours. Perhaps after you gain you will be better.
"Mrs. E.—Usually if the wife is in good health and not joyous, nourished, the condition you speak of is the fault of the husband. The husband should see his physician and have this explained.
Monday—Merry Christmas!

More Electric Cars Being Bought

A SPLENDID indication of the improving financial conditions for electric street railroads is the fact that between January 1, 1922, and June 15, 1922, orders were placed by electric railway companies for 1016 new cars, which exceeds the entire number purchased during the last year of 1921.

A number of other statistics may be cited as convincing proof that Electric Railways throughout the country have definitely turned the corner and are steadily increasing in earning power and strength. This suggests the advisability of investing in Electric Railway Bonds, some of which are now being bought at prices considerably lower than are justified by their real safety. A good example of this type of Bond is:

We Invite Inquiries and Advice Regarding Your January Investments

The stability of your investments depends largely on the integrity and the responsibility of the institution which sells the security.

We may safely depend upon our recommendations and the careful personal attention we will give to your requirements.

Our suggestions will not be limited only to securities which we own and offer, but will be made to suit your OWN INDIVIDUAL INVESTMENT REQUIREMENTS. Among others, as a class of securities we recommend:

California Public Utility Bonds

These bonds represent a real security to the investor because they are essential to the operation of the public utilities and because the earnings of these utilities have been ample to take care of interest and because these bonds are legal investments for banks, trusts and other institutions as well as being tax exempt in California.

Steel Activity Continues at Record Speed

(PITTSBURGH, Dec. 25.—) With steel production keeping up to the October and November rate, about 40,000,000 tons of ingots a year, mill operations have not fallen off, as some had thought they would. Buyers of steel generally prefer to curtail shipments or have them suspended altogether so as to lighten the work of inventory on January 1, but this year this has been changed. A number of mills had been ordered closed down entirely last week, but pressure for deliveries brought about a change so that the production fell last only one day in most departments.

More activity occurs in the steel market than is apparent. While there is an absence of the pressure so noticeable when fuel shortage limited operations, demand for certain lines of finished steel keeps the departments operating to the top notch. Orders instead of going to the mills before finding a mill ready to accept them, are now placed with facilities, as there are many mills in position to make any delivery desired. This condition, which was normal before the war, now seems abnormal, but probably will become familiar again.

It was predicted some time ago that bars, shapes and plates would decline from the \$2 price before the end of the year, which has not been verified. Instead, the price is somewhat better established now than it was a month ago. Slight concessions on plates and bars are common but in bars and shapes concessions seem to be rare.

There is a very strong market in tubular goods, the basing discount on merchant pipe being 50 per cent. The same condition obtains in wire rods to a certain extent. A leading interest is booked for fifteen weeks on rails. A heavy demand has been felt for woven wire, especially in fencing from the agricultural sections. Rails are \$2.10 and plain wire \$2.45.

All producers of steel in the Pittsburgh and Valley districts are making a strong effort to maintain the \$22.50 price basis on semi-finished steel. Forging billets are selling in a small way and are quotable at a regular market price of \$22.50. There is an inquiry in the market for 2000 tons of billets and slabs for strip-making.

Steel scrap consumers are taking deliveries very well. This is exceptional at the year-end period. The trade is looking for substantial buying of scrap in January.

WEEKLY BOND REVIEW

(BY A. P. NIGHT WIRE)

NEW YORK, Dec. 24.—New bond offerings last week totaled \$22,905,000, as compared with the previous weekly total of \$18,548,000. The increased offering of State and municipal tax exempt securities, which aggregated \$15,062,000, was a feature. While the increase was largely due to the reinvestment demand and the agitation in Washington for legislation limiting the issuance of tax-free securities had the effect of toning up the demand for this class of securities. The demand has also cleaned up the supply of most bonds of this class and stiffened the prices of new issues.

Trading in the bond market was on a reduced scale and there was the usual prohibitory dullness, with few important changes in the general list. United States government issues were a little stronger. This strength was attributed to the customary reinvestment demand making itself felt in these issues, as well as their purchase for gift purposes. Copper bonds strengthened in sympathy with higher

stock prices and the price of the metal, which is now coming at 19 1/2 cents a pound, the highest in the year.

Railroad bonds and notes maturing in 1923 aggregated \$194,952,320 as against \$225,992,360 in 1922. The largest amount of obligations again falling due in any month in January will be \$49,751,476, of which equipment bonds to the government, and resold by the United States Railroad Administration make up \$22,901,250. The railroad maturities during the year were small, the largest being \$7,742,000, St. Paul and Northern Pacific first 6 1/2 due February 1.

The announcement of J. P. Morgan and Company early in the week that the German Ambassador had been informed that no international loan to Germany could be considered or discussed unless and until the reparations question was settled, served to set at rest rumors that were proving embarrassing to both the administration and local international bankers.

The new Cuban \$50,000,000 loan was announced during the week as one for thirty years at 5 1/2 per cent with amortization feature. The successful bidder will be announced January 11. Canadian advances led to the belief that the \$150,000,000 loan which the Canadian government intends to seek early next year will be split between the New York and London markets, now that sterling exchange is in a more favorable position. There was a belief among bankers that the local market could safely absorb \$100,000,000 of the new Canadian securities.

FORTY YEARS WITHOUT LOSS TO ANY INVESTOR

PARTICIPATE IN THE PROFITS OF OIL REFINING

Seven Years of Remarkable Success

Are back of this Common Stock offering of the Rio Grande Oil (Refining) Company, El Paso, Texas.

Each \$1000.00 of the original investment (January, 1916), has earned and the investor has received to date, \$11,000 in stock dividends, and \$4200.00 cash. Present invested capital over \$500,000. Surplus after paying the above dividends, equal to approximately 15% of capital.

Sales, 1921, \$2,387,475; Estimated, 1922, \$3,000,000.

This Company confines its operations to refining and marketing. The management will continue under the men who have achieved so great success.

For the purpose of building its third refinery, to be located in Los Angeles, a block of its Common Stock will be sold at par \$100 per share. After January 1, 1923, the cash dividend will be 3% quarterly, with stock dividends as surplus accumulates. Call or write for full information.

WEST VIRGINIA DEFEATS GONZAGA BY CLOSE MARGIN AT SAN DIEGO

Button, Button, Who's Got the Football?

When the Gonzaga Bulldogs Staved Off a Touchdown—For a While Longer

Master Martin, Mountaineer fullback, has just carried the ball right up under the shadows of the Gonzaga goal posts, an event leading up to the first West Virginia touchdown in the initial quarter of the Christmas Day game at San Diego. Although the ball is nowhere in sight, it is almost an assured fact that it is somewhere in the pile of humans. The young sub with a 6 on his back is Headlin. The Gonzaga end, who intercepted a pass and ran eighty yards for West Virginia's second score. The individual with a 5 on his back is Flaherty, Gonzaga end. Notice all four officials.

EXPERTS GALORE TAB GAME

(EXCLUSIVE DISPATCH)

SAN DIEGO, Dec. 25.—One of the features of the game between Gonzaga and West Virginia here today was the character of the audience. It is doubtful if there has ever been a game more thoroughly dissected by experts than this. Coaches and scouts from every university and college in the country were on the side lines with pencils, charts, diagrams and other paraphernalia called into use in the noble art of sleuthing.

After the game a batch of experts were playing it over verbally and somebody brought up the point that U.S.C., with a former Penn State player as freshman coach and with a country-wide "scouting" system, undoubtedly had their New Year's Day opponents' system of play pretty well mapped out. They started trying to kid Hugo Besdek about it and finally the Penn State mentor grinned and remarked:

"Well, you know that up in the big leagues we always know what the opposing pitcher has on the ball but that doesn't necessarily mean that we can hit it."

Besdek not only has a reorganized system of play but a reorganized team.

"I'm building towards next year," he added, "and out of the team that will start against U.S.C. at Pasadena I will only lose one man by graduation."

side lines in midfield and, running to the West Virginia 3-yard mark before he was forced out of bounds by the ever-vigilant Mr. Nardacot. The crowd went wild at this sudden change in fortunes. As the players crouched for the crucial plays only a few feet from the

goal line of the Mountaineers, they remembered that this same line had withstood the onslaughts of six teams in succession, including Washington and Jefferson, and had remained inviolate.

Skate, the plunging fullback of the Bulldogs, crashed into the line which yielded him a scant yard. They crouched once more while the crowd screamed, and this time Skogston's bulky frame hit the stalwart line of Mountaineers. It shuddered, wavered and finally gave way under the mighty impact of the drive and the Gonzaga back lunged across for the West's first score.

had pass from the center ruined what chance Gonzaga had of making the extra point, and that footed opportunity loomed large on the horizon a few moments later. Gonzaga received the kick-off and on the first play Bros snatched a forward pass out of the air and dashed past midfield with it.

Right there the Mountaineers sensed their danger and tried to

INDIAN TEAM TO DON WAR PAINT

The Sherman Indian School and the Yuma School will fight out a heap big battle at the Chumavina Park football field at Riverside on New Year's Day. The field is in perfect condition and the Indians hold a heavy practice there every day. The Sherman boys look good and unless the Yuma tribe is a fast lot it will have a hard time slipping the tomahawk to the local braves.

Midget Willie, star of the Caltech game and 114-pound quarterback, will probably start the game for the Sherman team. If for any reason he is out of the game, Brown, 157-pounder, may play. The Yuma Scouts will arrive in Riverside this morning and will start practice immediately.

SANTEL MEETS GREEK

Louis Pergantos to Hook up With Ad in Grappling Match at Philharmonic Auditorium

Ad Santel, light heavyweight wrestling champion of the world, has become a permanent resident of Los Angeles and from now on the sight of the husky grappler perambulating around the Southern California highways in his big sport model car will be a sight heretofore not offered to Angelenos. Right at present the champion is busily engaged in the gentle art of training for a title match.

Louis Pergantos, Greek light-heavyweight title holder, is to furnish the opposition for Santel in their coming championship bout, which is to be held at the Philharmonic Auditorium Thursday, January 4. Pergantos is a sensational young Greek matman and according to those who saw him in his first workout since arriving here Saturday, he will give Santel all he can handle. Pergantos has a big following among the local Greek colony and all his friends are pulling for him to trim Ad and annex the title.

Santel is working hard and is bound to be in perfect condition for the coming battle. He is dividing his time between gym work at the Union League gymnasium and outdoor training on the beach at Venice. Santel says that it was outdoor work on the beach at San Francisco that was responsible for his many mat victories in the past.

LOKI TEWANPTEWA WINS

Yesterday afternoon before a crowd of a thousand people, the Hopi Indian five-man marathon team topped the first five places in the annual midwinter meeting of the American Indian Athletic Association. Leki Tewanptewa won first place, covering three and three-quarter miles in 20 minutes and 55 seconds. This is a very fast time for a marathon runner and Leki was

hailed as a real idol by his admirers. These five runners were trained from childhood to be marathon racers. The order in which the team finished was as follows: Leki Tewanptewa, first; James Humetewa, second; Thomas Humphrey, third; Henry Humetewa, fourth; and Bruce Ahutsu, fifth.

Glen Warner was in high spirits and talked and joked about his team and their experience. If all turns out as well as Warner hopes it will, a great time will be had at the Stanford-Pitt game.

NATION'S FOOTBALL COACHES TO CONVENE
(BY A. P. NIGHT WIRE.)
COLUMBUS (O.) Dec. 25.—Football coaches of the country, particularly those east of the Mississippi River, were headed to the annual midwinter meeting of the American Football Coaches' Association and of the National Collegiate Athletic Association. The meeting will be held Wednesday at the Hotel Astor according to Dr. W. Wiles, director of football at Ohio State University, and secretary of the American Football Coaches' Association. Discussion among the coaches will focus on practical football problems and rules.

A COMIC SONG HORSE WINS FIRST IN RACE
(BY A. P. NIGHT WIRE.)
NEW ORLEANS, La., Dec. 25.—Comte Songe at 5 to 1, easily finished first in the one mile Christmas handicap here this afternoon before the largest crowd of the racing season at Jefferson track. Ralco was second and Tippetty Wichita was third. Twelve horses ran for a purse of \$2500. Comic Songe ridden by Chick Lang, carried 117 pounds.

GENE AND JOCK START WEST

(BY A. P. NIGHT WIRE.)

NEW YORK, Dec. 25.—Gene Sarazen and Jock Hutchinson departed from New York late today on a three months' golfing tour that will take them to the Pacific Coast and back. ALL-STAR BALL TEAM LICKS MANILA BUNCH

(BY A. P. NIGHT WIRE.)
MANILA (P. I. N.) Dec. 25.—A baseball team composed of National and American League stars defeated a picked team of Manila Americans here today 13 to 5. The visitors, who came here after touring Japan, departed tonight on the steamer President Jefferson for the United States via Hong Kong and Shanghai. Governor Wood was at the pier and bade the players Godspeed.

BAKERSFIELD TO BUILD STADIUM

(EXCLUSIVE DISPATCH.)
BAKERSFIELD, Dec. 25.—Plans are being made to erect a \$10,000 stadium, capable of seating a crowd of 20,000 people, here according to a statement that was made public today. Bakersfield's need for a big stadium was shown here last Saturday by the 12,000 people that crowded around the gridiron at the fairgrounds here to see Berkeley High and Bakersfield High battle for the state prep football championship, which was won by the local warriors.

The new stadium will be built of concrete and will have all modern conveniences. It will be located on a three-block site in back of the local high school. All buildings on this space have been condemned and are rapidly being moved off. It is expected to have the massive structure completed in time for the next football season.

ARIZONA PUTS IT ON AGGIES

Utah on Short End of a Gripping Contest

Grid Crowd Largest Ever Seen at Phoenix

Game Is Clean-cut Affair All Way Through

(EXCLUSIVE DISPATCH.)
PHOENIX (ARIZ.) Dec. 25.—Arizona won this afternoon from the Utah Aggies in a well-fought game. Score 7 to 6. The day was a perfect one and the crowd the largest ever gathered in Arizona for any football contest. Admissions totalling about 10,000 completely filled the great grand stand. The teams were evenly matched, the weight being about equal, man for man. Both coaches had laughed about the same sort of football, making it a battle royal from start to finish.

Arizona had the edge on the Aggies the first quarter, using line backs and short end runs. The Arizona backs advanced the ball to the center of the field. Here they were forced to punt and a punter's duel resulted. In this Utah Knowles of Utah outkicked McChelland of Arizona. Knowles got his punts away high, allowing his ends to throw Gilliland in his tracks. Arizona opened a little with a pass. Hobbs to McChelland.

CHOCKER LANE
After a few more bucks and runs, Hobbs, Arizona's captain, crossed the Utah line on a booter play around right end. Arizona converted by a drop kick. Utah then kicked to Arizona, Gilliland carrying the ball back twenty yards. Then McChelland, Arizona's quarter, made a long end run. In the second quarter Utah advanced the ball by bucks, from a quick shift. Knowles, Utah left half, carrying the ball in, made a head of plays. Wes Schaub, Utah quarter, also came in handy with his quarterback bucks. Knowles scored for Utah in this quarter by a back end tackle. Utah failed to convert. In the third quarter, Utah continued to hold the edge and it looked like a sure score twice, but each time Arizona rallied and kicked out of danger. In this quarter Strider came in for Arizona and took the kicking honors away from Knowles. Another punter's duel resulted and now Arizona was outkicking Utah.

SPOILS GAME
Arizona again opened up with her passes, but Strider, Utah's long halfback, spoiled this game, for Strider intercepted three long passes which should have been scores. Arizona again was coming back strong with her power play.

SALVATION ARMY ENTERTAINS

Christmas Cheer Abounds as City Poor Eat Turkey

With All the Christmas Trimmings

MORE than 700 men, destitute and hungry, were the guests yesterday noon of the one Santa Claus who never fails them, the Salvation Army.

Old and young, the victims of circumstance, "men-who-might-have-been-if-only," filed into the army hall at 127 Weller street, to receive a Christmas dinner which was all that the name implied.

The hall seats only 350 but it was filled three times and there still was a waiting line when it was regrettably announced there was no more food.

The dinner is an annual affair, dedicated to the men of misfortune. For weeks before Christmas members of the Salvation Army solicit contributions that they may not fail these men. Their ability to serve depends on the charity of those who can afford to give.

Ernst W. E. Gooding, commander of the local Salvation Army forces, was in charge of the meal, assisted by fifty other members of the organization. Before 10 a.m. the street in front of the hall was crowded. Shortly after 11 o'clock the doors were opened and the first 350 were admitted. Then came the third and later the last contingent.

It wasn't a charity meal of the usual character. There was candy, fruit, all the Christmas trimmings. Forty gallons of ice cream were donated by the Globe Ice Cream Company. Every man who left the hall had a pink carnation in the lapel of his coat.

"Possibly some are not deserving but we can afford to feed ninety-nine imposters if the hundredth man is really in need," Eric Gooding declared.

PUSH FLOOD CONTROL AT LONG BEACH

Construction Work Will Guard Suburb From High Water Invasion

By a "Times" Staff Correspondent
LONG BEACH, Dec. 22.—Flood control work that will insure Long Beach against temporary isolation from towns to the north because of high water, is progressing at a rapid rate north and west of the city. A pile driver, constructed for flood control work, and two steam shovels are now at work finishing the remaining four-mile stretch of barrier along the flood control channel extending northeast and southwest of Long Beach Boulevard.

This portion of the channel extends from Arteria avenue bridge southwest to the Pacific Electric trestle, following the route of the Los Angeles River. A stretch of high piling, interwoven with heavy wire which is to hold a solid bank of brush is now being installed and the channel is being straightened in several places to insure against overflow during heavy rains.

Work on the temporary bridge on Long Beach Boulevard, which will be used pending the construction of a new concrete bridge, is progressing rapidly.

SAWTELLE BUILDING TO HOUSE AUTO CONCERNS

By a "Times" Staff Correspondent
SAWTELLE, Dec. 22.—E. C. Japa, automobile dealer, and T. H. Dudley, president of the Ocean Park Bank, have received designs for a new business block, to be built with a frontage on Main street at Bay street, in which they will invest more than \$20,000. It will have a white tile and pressed-brick front, and will be four stories of large dimensions, especially in height, equipped for automobile trade.

The northwest corner of Pico and Main streets has been acquired by G. Gordon Parkhurst of Venice. Max Markovits and L. G. Torrance have purchased a corner on Michelson street.

Club Man Is Sued by Wife for Cruelty

The details of the asserted cruel treatment by Edward G. English, wealthy contractor and club man, of Mrs. Harriet W. English will be given today when Mr. English appears before Judge Summerfield to show why he should not pay his wife \$500 a month and give her one-half of his \$1,000,000 estate. Mrs. English has sued her husband for separate maintenance. Mr. English locked his wife from his room and in other ways treated her in a cruel and inhuman manner, it is charged. Attorney S. S. Hahn, representing the wife, had the husband cited before the court on an order to show cause.
